Portfolio

EDUCATION

Indian Institute of Information Technology (IIIT) Bhagalpur: Bachelor of Technology in Computer Science and Engineering
• **GPA:** 8.08 (Absolute Grading) **2022 – 2026 (Expected)**

EXPERIENCE

Neoned71 Tech Solutions

Sept 2024 – Nov 2024

Software Development Engineer (SDE) Intern

- Spearheaded development of scalable UI modules and system features for the storytelling platform **WriterBoard** using **C++**, **Qt Framework**, **OOP**, **Multithreading**, and custom event handling, enhancing responsiveness and long-term maintainability.
- Accelerated data access and reduced memory usage by **30%** by overhauling node-to-connection mapping logic and engineered memory-efficient data structures with **STL containers**.
- Optimized **QGraphicsScene** event flow to reduce input lag and enhance rendering in large-scale story graphs.
- Refactored core modules using **SOLID principles** and design patterns to improve testability and reduce code dependencies. Furthermore, resolved **30+ issues** and completed **12+ code reviews** in a collaborative **team of 5 members**.

PROJECTS

CVNirmaan-AI, AI-powered Resume Generator Project

2024

- Innovated an AI-driven resume and cover letter builder using **ReactJS**, **JavaScript**, and **OpenAI APIs** with live preview, validation, and smart suggestions, reducing resume creation time by **40%**
- Built secure login and logout functionality using **Firebase Authentication**, ensuring reliable session management
- Introduced a responsive UI using **TailwindCSS** and **jsPDF** for one-click PDF export, improving usability across all devices

Saahitya-Hub, Literary Showcase Platform

2023

- Developed a modern, responsive literature discovery Platform using **HTML**, **CSS**, and **JavaScript**, integrating **Google Books API** with features like search, dark mode, and detailed previews
- Enhanced user experience by designing intuitive UI and interactive features to improve discoverability and engagement

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Qt

Databases & Cloud: MySQL, MongoDB, Firebase

Development Tools: Git, GitHub, VS Code, Postman, Figma

Technical Expertise: RESTful APIs, Database Design, Version Control, SDLC, Low Level Design (LLD)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks (TCP/IP, HTTPS), Software Engineering

ACHIEVEMENTS

- **LeetCode & GeeksforGeeks:** Solved **800+ DSA Problems** and reached a maximum rating of **1851 (Knight Level)** on LeetCode, demonstrating strong algorithmic skills.
- **Flipkart GRiD 6.0 (2024):** Secured a top 1.65% rank (8,000 out of 484,308), excelling in software development.
- **HP Power Lab Quarterfinalist:** Placed in the top 0.1% (180 out of 129,288 teams) by solving real-world engineering challenges, showcasing analytical and teamwork skills.
- **Tata Imagination Challenge 2024:** National Semi-Finalist, ranking in the top 0.1% (7,118 out of 312,540).
- **Internal Smart India Hackathon (2024):** Secured 4th place among 41 teams by developing a feature-rich museum platform integrating chatbot-driven ticketing, enhancing user experience and accessibility.
- **EY Techathon 5.0 (2024):** Ranked top 1,749 out of 150,000+ by developing SkillUp AI, an AI-driven platform.
- **CodeKaze by Naukri 2024:** Ranked AIR 920 out of 100,000+ participants (top 0.92%), demonstrating expertise in data structures, algorithms, and competitive programming.

LEADERSHIP EXPERIENCE

PyC Coding Club Lead, IIIT Bhagalpur

2024 – Present

- Leading weekly code reviews and programming workshops for 20+ student developers
- Organize and conduct more than 10 technical training sessions focusing on algorithms and data structures
- Coordinate approx 15 competitive programming contests and hackathons for skill development
